Open to Working Student and Junior Technical Game Design roles

PROFILE

Junior Technical Game Designer with commercial production experience at Paintbucket Games. I design and implement gameplay systems in Unity, translate design ideas into playable content, and work comfortably within existing production frameworks. My main strengths are gameplay systems, visual scripting, level design, and rapid iteration.

EXPERIENCE

Paintbucket Games — Technical Design Intern

Berlin · Mar 2026 – Jul 2026

- Worked on The Darkest Files: The Battalion DLC, gaining first commercial production experience in game development.
- Implemented gameplay systems and progression logic using Unity and Articy: Draft X within the studio's custom framework.
- Collaborated with programmers, narrative designers, technical artists and producers in weekly sprints and daily stand-ups.
- Used Plastic SCM, Codecks and internal reviews/playtests to iterate on features and maintain gameplay reliability.

Previous Professional Background — Law & Education

- Strong background in structured analysis, documentation, research and responsibility.
- Experience communicating clearly, handling complex information and working independently.

SELECTED PROJECTS

The Darkest Files: Battalion

Implemented progression logic, narrative scripting and courtroom gameplay in Unity and Articy: Draft X. Configured scenes, waypoints and cameras; tested and debugged gameplay sequences.

Berlin Delivery Driver

Driving and delivery game featuring route flow, interaction systems, AI traffic, UI feedback and gameplay tuning.

What 'Actually' Makes Us Punk?

Remake of a dialogue-focused game expanded with a newly designed rhythm-game system and level design.

SKILLS

Technical

Unity Engine (2D / 3D)
C# gameplay scripting
Unity Visual Scripting
Articy: Draft X
Gameplay systems implementation
System integration & debugging
UI logic
Plastic SCM
Codecks
Miro

Design

Gameplay mechanics prototyping
Level design & pacing
Interaction systems
Rapid iteration & playtesting
Cross-disciplinary collaboration

Production

Agile production
Weekly sprints
Daily stand-ups
Internal reviews & playtests

EDUCATION

B.A. Game Design

University of Europe for Applied Sciences, Berlin

2023 – 2027

Focus: gameplay prototyping, technical design, level scripting, interaction systems
